DIPRIVA

The Sales Follow-Up Kit

Five touches after every proposal. Five messages ready to send.

Touch	When	Purpose	Message
1	Day 1	Confirm	Hi [Name], I sent the proposal for [project] today. Please confirm it arrived and tell me what questions it raises. I can walk through it in 15 minutes.
2	Day 3	Answer	Hi [Name], any questions on the proposal so far? If a number or a scope item is unclear, tell me which one and I will clarify it today.
3	Day 7	Add value	Hi [Name], one thing that may help your decision: [a relevant example, or the answer to their question]. If it changes anything in the proposal, I will adjust it.
4	Day 14	Ask	Hi [Name], where does the proposal stand? A clear yes, no or not yet helps me plan. If your timing changed, tell me the new date.
5	Day 30	Close the loop	Hi [Name], I am closing the file on this proposal today. If priorities change, reply here and I will reopen it.

Days count from the day you send the proposal. Weekend dates move to Monday.
Replace the brackets. Send each message from your own email.
The Excel tracker calculates every due date for you.
